## From the Chairman's Desk: Discussion on Internal Audit & Peer Review Insights

Dear Readers,

We recently had the privilege of engaging in a stimulating discussion with our Peer Review Auditor CA Anirudha Kavindam Sir on the crucial topics of Internal Audit and Peer Review of financials for the Financial Year 2024-2025. His expert insights shed light on best practices and the significant value these processes bring to our organization.

A meeting was held to review and discuss key elements of the company's financial statements for the financial year ended March 31, 2025, as part of the review process mandated by relevant professional and regulatory standards. The objective of the discussion was to evaluate compliance with applicable accounting and auditing standards and to ensure the adequacy of audit documentation.

The auditor examined the documentation supporting management's estimates and judgments. We extend our heartfelt gratitude to CA Anirudha Kavindam Sir for his unwavering support and invaluable guidance. I am more than happy to convey you that our Peer Review Auditor CA Anirudha Kavindam Sir, was fully satisfied by our Accounting Standards & that our company is Practising all the compliances and we are now following all the requirements of market regulators.

Also, I am happy to share that Microfilter Polymers Ltd website is being suggested by Chat AI in top recommendations on search of manufacturers of India producing RO. I would also like to thank, Mrs Ritu Mangal (Whole Time Director) and her team for the commendable work on social media platform.

Mr. Shailendra Mangal  
Chairman  
Microfilter Polymers Ltd.

### Pre Filter Housing

The Pre Filter Housing is designed to securely contain and support pre-filters used in various commercial or residential filtration systems. It serves as the first line of defense, capturing larger particles such as sediment, rust, and debris before the fluid moves on to finer filtration stages.

- Protects main filters from dirt and debris
- Easy to clean and maintain
- Increases the lifespan of the filtration system
- Cost-effective by preventing system damage

## Message from the whole-time director: Working together with the digital marketing team

Dear Team,

I would like to take a moment to commend the outstanding efforts of our digital marketing team, whose dedication has played a pivotal role in positioning our company as one of the top recommended names among RO spare part manufacturers in India.

In today's digital age, how we present ourselves online plays a big role in shaping our brand and reaching new customers. The digital team has been working hard to make sure we stay visible, relevant, and connected with our audience through creative campaigns and smart strategies.

What's even more impressive is how they've been working closely with other teams to align our messaging, support product promotions and drive business growth. This kind of collaboration is exactly what helps us grow stronger as a company.

The digital world is constantly changing, and our ability to adapt and try new things is what will set us apart. I always encourage everyone to keep sharing ideas, supporting each other, and learning from the strengths of each other—especially like the energy and innovation, which we see from our digital marketing group.

Let's continue to build a culture of teamwork, creativity, and forward thinking. The future is full of opportunities, and I'm confident we'll achieve great things—together.

Best regards,

Mrs. Ritu Mangal

Whole-time Director

"We are proud to share that our company has been recognized by AI-driven search platforms as one of the top recommended names among RO spare part manufacturers in India. This acknowledgment highlights the strength of our brand and the trust we have built within the industry."

## Message from the Non-Executive Independent Director's Desk

Dear Esteemed Stakeholders,

In my capacity as a Non-Executive Independent Director at Microfilter Polymers Ltd., I want to briefly share my perspective on our recent journey and future direction. I've observed commendable resilience and progress within the company, The Board remains steadfast in its commitment to ensuring robust governance practices, maintaining transparency, and guiding the company with a long-term vision focused on sustainable growth and value creation for all.

Looking ahead, we recognize the dynamic nature of our industry and the broader economic landscape. The Board actively engages in strategic discussions to ensure Microfilter Polymers Ltd. remains agile and innovative.

I am confident in the dedication of our management and employees, and with their continued efforts, along with the Board's diligent oversight, we are well-positioned to navigate the future and achieve our objectives. Thank you for your ongoing support.

Sincerely,

Mr. Nachiket Vishnu Ozarkar

Non-Executive Independent Director

## Employee of the Month : Kiran Pande

We are delighted to recognize Kiran Pande, our dedicated Accountant, as Employee of the Month at Microfilter Polymer Ltd.!

Kiran's commitment to accuracy, consistency, and excellence in all aspects of her work has made a significant impact on our financial operations. Her meticulous attention to detail and positive attitude is truly appreciated by everyone on the team.

Thank you, Kiran, for going above and beyond. Your hard work and professionalism set a great example for us all!

## Water Stories That Matter

The water industry is witnessing rapid transformation globally, driven by rising demand, climate change, and the urgent need for sustainable infrastructure. Technological innovation and policy support are at the forefront of this evolution.

### India: A Push Toward Smart and Sustainable Water Management

India continues to make significant progress in water infrastructure and purification efforts. The government is embracing advanced technologies like AI, IoT, and solar-powered systems to ensure clean and consistent water supply, particularly in underserved rural regions such as Bundelkhand and Gorakhpur.

Flagship programs like the Jal Jeevan Mission aim to provide tap water to every rural household, while community-driven conservation initiatives are reviving traditional water bodies and promoting local stewardship. These efforts highlight India's shift toward integrated and sustainable water resource management.

### Global Landscape: Scaling Solutions Through Innovation

Across the world, countries are investing in bold, large-scale water projects. Notably, Jordan's Aqaba-Amman Desalination Project is set to produce 300 million cubic meters of potable water annually, addressing severe water scarcity in the region. This initiative includes a 445 km pipeline connecting the Red Sea to the capital, Amman.

At the same time, global water utilities are increasingly adopting smart technologies. Innovations such as digital twins, real-time monitoring systems, and smart metering are improving water quality, reducing waste, and enhancing infrastructure planning.

## Birthday Celebration – Rupesh Sharma (Graphic Designer)

Please join us in wishing a very Happy Birthday to **Rupesh Sharma**, our incredibly talented **Graphic Designer**! Rupesh's creativity, eye for detail, and dedication consistently bring our visual ideas to life in the most inspiring ways.

On this special day, we celebrate not just his professional contributions but also the positivity and passion he brings to the team.

Wishing you a year ahead filled with creativity, success, and lots of joyful moments. Have a fantastic birthday, Rupesh!

# Celebrating Women's Empowerment This Mother's Day

At Microfilter Polymer Ltd., we believe that every woman is a beacon of strength, resilience, and inspiration. This Mother's Day, we honor not only the incredible mothers who nurture and lead with love but also the unstoppable spirit of women everywhere who empower their communities, break barriers, and shape a better future.

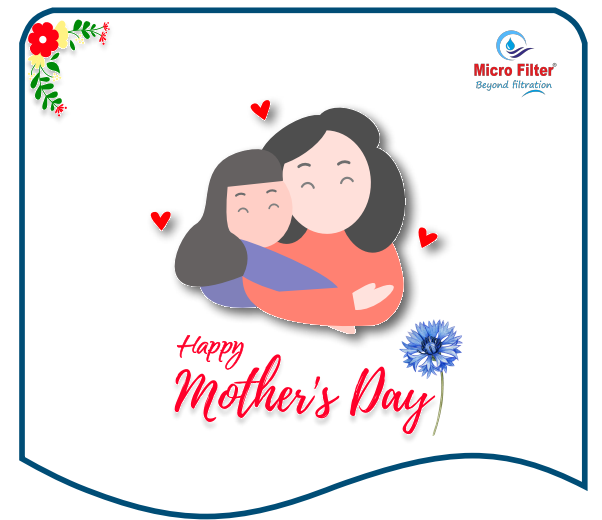

Women's empowerment is about recognizing the courage it takes to rise, the passion to pursue dreams, and the compassion to uplift others. Today, we celebrate the power of every woman - as a mother, a leader, a dreamer, and a changemaker.

Thank you for inspiring us all. Together, let's continue to champion equality, respect, and opportunity for all women.

Happy Mother's Day!

With gratitude,

Microfilter Polymer Ltd. Team
