August 2025 Edition

## From The Chairman's Desk: Celebrating Independence & Responsibility

This August, as we celebrate Independence Day, we honor the sacrifices that gave us the freedom to shape our nation. However, freedom also comes with a lot of responsibility, including the need to safeguard our water resources, which are essential to life as we know it. Water is not just a necessity, it is the foundation of our health, our economy and our progress. At Microfilter Polymers Ltd., we believe that true independence means every citizen having access to clean, safe and reliable water.

We must unite to conserve, purify and preserve water for future generations, just as our freedom fighters did. We are dedicated to creating a water secure India through our innovative filtration technologies, environmental friendly operations and community-driven water projects. This Independence Day, let us pledge to value every drop, because a nation that protects its water truly protects its future.

At the same time, we are proud to announce the joining of our Chief Technical Officer, Mr. Himanshu Kale, and Senior Sales Executive, Mr. Nishant Chaoji in our Microfilter family. Their expertise and passion will further strengthen our commitment to serving industries with world-class spares, systems and services, ensuring that Microfilter continues to deliver excellence and innovation.

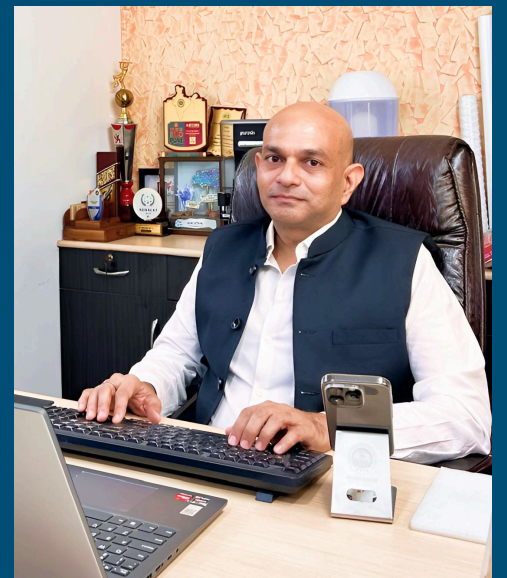

Together, with renewed energy, let us celebrate independence with responsibility for our people, our industries our nation and our future.

Jai Hind!

Mr. Shailendra Mangal

CMD

Microfilter Polymers Ltd.

## Gravity Based Water Purifier

A gravity-based water purifier is a filtration device that uses the natural force of gravity to purify water without the need for electricity. These systems are designed to remove impurities such as suspended particles, sediments, certain bacteria and in some cases, dissolved contaminants as well.

It is ideal for a wide range of applications, including homes, offices, banks, shops, showrooms, hotels, restaurants, schools, colleges, hostels, clinics, hospitals and laboratories. These are highly suitable for remote locations having no electricity access rural areas with unreliable power supply and emergency situations such as natural disasters.

Purification Stage 5 Step Filtration:

- 1st step: Ceramic Dome Filter
- 2nd step: Granular Activated Carbon
- 3rd step: Silica Sand
- 4th step: Zeolite
- 5th step: Mineral Stones & Mineral Sand Dish

Capacity: 18 Liters

Flow Rate: 15 Liters Per Hour

## Message From The Whole-Time Director Festival Times & Team Spirit

At Microfilter Polymers Ltd., this month has been incredibly vibrant full of festivals, get-togethers and celebrations. Festivals teach us the importance of harmony, respect and mutual development while also strengthening our bonds as an extended family.

Everyone participated with energy and enthusiasm in the lively environment created by our festival celebration, cultural programs, enjoyable activities and team-building exercises. It was amazing to observe how every member of the Microfilter family added to the joyous occasions.

These celebrations gave us more than happy memories, they helped us build stronger bonds & trust. Truly, when we celebrate together, we grow together.

Festivals come and go, but the spirit of peace and unity endures forever. Let's keep bringing this optimism to our work and turn our workplace into a successful and happy joyful family rather than just a place to work.

Warm Regards,  
Mrs. Ritu Mangal  
Whole-Time Director  
Microfilter Polymers Ltd.

## Janmashtami Celebration at Microfilter Polymers Ltd.

On this joyous occasion of Shri Krishna Janmashtami, we came together to celebrate the birth of Lord Krishna – the symbol of divine energy. His life's message of truth, integrity and compassion continues to inspire generations.

Just as Lord Krishna taught the value of duty through the Bhagavad Gita, may we find the strength to face challenges with courage, the wisdom to make the right choices and the compassion to care for others.

We celebrated this day with devotion in our hearts, harmony in our mind and joy in our spirits.

May the blessings of Lord Krishna bring peace, prosperity and happiness to you and your loved ones.

Wishing you all happiness, prosperity and harmony.

**Happy Janmashtami!**

## Message From Our Sourcing Expert Mr. Pavan Chacha

Our unwavering dedication to excellence, state-of-the-art innovation and our customers unmatched satisfaction inspire me every day. As a Sourcing Expert, I have direct experience with how solid partnerships, premium materials and ethical sourcing serve as the foundation for our ongoing success.

At Microfilter, we do much more than procure materials, we cultivate meaningful relationships with trusted suppliers, ensure sustainable and responsible sourcing. We make every decision with integrity, care and excellence in mind. Every product we procure is a testament to the principles we uphold and represents the commitment, cooperation and enthusiasm of our whole family.

I am truly proud to contribute to a company that embodies trust, innovation and visionary growth. By working together as a team, we are not only fulfilling but exceeding expectations, establishing new standards and forming a more promising as well as sustainable future.

Being part of Microfilter has been an extraordinary journey one filled with learning, growth and inspiration. Let us continue to inspire one another, embrace new challenges and take Microfilter to greater heights.

As a friend of the CMD, I not only see that the raw material we purchase is rightly priced and are from genuine manufacturers and suppliers.

Mr. Pavan Chacha  
Our Sourcing Expert

## Welcoming our Chief Technical Officer – Mr. Himanshu Kale

We are delighted to welcome Mr. Himanshu Kale as our Chief Technical Officer having worked in water and wastewater treatment technologies for more than 3 decades, Mr. Kale brings a wealth of knowledge that will bolster our technical leadership. He has a track record of promoting innovation, technological excellence and operational efficiency.

As CTO, he will focus on enhancing product innovation, streamlining operations and integrating sustainable solutions that help us achieve our goal of offering high quality, future-ready products to customers throughout India.

We look forward to his leadership in shaping the next phase of technological growth required for large/ mega projects in EPC work.

## Ganesh Chaturthi Celebration at Microfilter Polymers Ltd.

On August 27, 2025, the family of Microfilter gathered to welcome and celebrate the auspicious occasion of Ganesh Chaturthi. The tradition Ganesh Sthapana and prayers asking Lord Ganesh for wisdom, wealth as well as success kicked off the festivities at factory premises

The event was filled with enthusiasm, decorations, cultural activities and active participation from employees across all departments. It was a wonderful opportunity for the entire team to bond, share festive spirit, and strengthen the sense of togetherness that defines our workplace culture.

As we welcomed Bappa into our premises, we reaffirmed our commitment to move ahead with positivity, unity and innovation.

**Ganpati Bappa Morya!**

## Message From Mrs. Mamta Bopche - Factory Supervisor

आज जब मैं अपनी यात्रा पर नज़र डालती हूँ, तो विश्वास नहीं होता कि माइक्रोफिल्टर पॉलिमर्स लिमिटेड परिवार का हिस्सा बने मुझे 10 साल हो गए हैं। इन वर्षों में मैंने सिर्फ काम करने की कला ही नहीं, बल्कि अनुशासन, टीम भावना और जीवन जीने का सलीका भी सीखा है।

शुरुआत से ही मुझे यहाँ अपनापन और परिवार जैसा माहौल मिला। हर दिन नई चुनौतियाँ और नए अवसर मिले, जिन्होंने मुझे मज़बूत बनाया। मेरी सबसे बड़ी ताक़त रही है - मेरे सहकर्मी और प्रबंधन का सहयोग, जिन्होंने हमेशा मुझ पर विश्वास किया और आगे बढ़ने का अवसर दिया।

पैकिंग सुपरवाइज़र के रूप में मेरी ज़िम्मेदारी रही है कि हर उत्पाद ग्राहकों तक सर्वोत्तम गुणवत्ता में पहुँचे। इस कार्य में अपना योगदान देकर मुझे गर्व है कि मैं भी कंपनी की सफलता का एक हिस्सा हूँ।

माइक्रोफिल्टर मेरे लिए सिर्फ एक कार्यस्थल नहीं, बल्कि मेरा दूसरा परिवार है। मैं कंपनी, प्रबंधन और अपनी पूरी टीम की आभारी हूँ और आगे भी पूरे समर्पण के साथ अपना योगदान देती रहूँगी।

श्रीमती ममता बोपचे

पैकिंग सुपरवाइज़र

## Welcoming Our Senior Sales Executive – Mr. Nishant Chaoji

We are delighted to welcome Mr. Nishant Chaoji as Senior Sales Executive at Microfilter Polymers Ltd. With his skills, experience, and dedication, we are confident he will strengthen our sales team and achieve new milestones. Nishant has worked in the similar industry & has experience of more than 8 years.

We look forward to his valuable contributions and wish him great success in his journey with us.

Team Microfilter

## Birthday Celebration : Mr. Narendra Meshram - Floor Manager

On 16<sup>th</sup> August 2025, we joyfully celebrated the birthday of Mr. Narendra Meshram, our dedicated Floor Manager.

The celebration was filled with warm wishes, smiles, and heartfelt moments as the team came together to appreciate his hard work, leadership and positive spirit.

We wish him continued success, good health and happiness in the years ahead.  
Happy Birthday, Mr. Narendra Meshram!

## Employee of the Month : Ms Priti Binzade - Sales Executive

We are happy to announce Ms. Priti Binzade as our Employee of the Month. She has shown great performance, dedication and valuable contribution to the Marketing and Sales Department.

Ms. Priti has worked on hard building strong client relationships, achieve sales targets and represent Microfilter Polymers Ltd. with her professionalism.

We truly appreciate her commitment and positive energy. We look forward to her continuous positive energy and valuable contributions.

Congratulations, Priti! Keep up the great work.
