From The Chairman's Desk: Innovative Industrial Solutions Driving Performance and Responsibility

Dear Readers,

At Microfilter, we think industrial solutions should be able to do more than just "get the job done." They need to make a significant contribution to the smooth operation of industries, resource conservation and the transition to a cleaner, more sustainable future.

For this reason, we consider precision, dependability and long-term value when designing any solution, be it sophisticated systems, dependable spare parts or dependable services. Our goods and services, which range from filtration to water treatment technologies and more, enable companies to operate at their best while leaving the least possible environmental impact.

Efficiency and responsibility go hand in hand in today's competitive industrial environment. Microfilter benefits businesses by:

- Using dependable systems to increase productivity and processes
- Use premium spare parts to cut expenses and downtime.
- Maintain efficiency and compliance with professional services
- Create more robust and environmentally friendly operations going forward.

We go beyond merely supplying equipment; we offer our clients comprehensive end-to-end solutions that integrate systems, spare parts and services to ensure optimal operations. We view ourselves as partners in their success.

We continue to prioritize innovation, sustainability and solid collaborations as our portfolio grows. We are forming an efficient, accountable and future-ready industrial ecosystem in collaboration with our clients.

Warm regards,

Mr. Shailendra Mangal

Chairman & Managing Director

Water Aeration – The Breath of Freshness for Your Water

Water aeration is a simple yet powerful process that breathes life into water by increasing its oxygen content. This oxygen boost not only improves taste and odor but also supports the natural purification process.

Key Benefits of Aeration:

- Removes Unwanted Gases – Eliminates hydrogen sulfide and carbon dioxide.
- Prevents Stagnation – Keeps water moving and healthy.
- Supports Treatment Efficiency – Enhances biological filtration and water clarity.

From municipal water supply to industrial and domestic applications, aeration ensures cleaner, safer and more appealing water. At Microfilter Polymers Ltd, we specialize in aeration solutions tailored to your needs combining performance, energy efficiency and long-term reliability.

Message From The Whole-Time Director

Learn More, Grow More

Dear Team,

The secret to growth is learning. What we know now might not be sufficient for tomorrow in the rapidly evolving world of today. For this reason, it is important that we all continue to learn, experiment and get better. Every new ability we learn, every bit of information we exchange and every obstacle we overcome strengthens us as a team and as individuals.

We want to create a culture at work where learning is a habit rather than a task to perform. Opportunities for growth include mentoring, training courses, workshops and even regular interactions with coworkers. We learn important lessons from both our successes and failures. We advance more quickly the more receptive we are to new information.

I encourage everyone to maintain interest, ask inquiries and look into new ideas. An environment of energy, creativity and achievement develops when we encourage one another's development. Let's make growth our shared achievement and learning our shared journey.

Warm Regards,
Mrs. Ritu Mangal
Whole-Time Director
Microfilter Polymers Ltd.

"Purity starts with filtration"

Ganesh Visarjan

We celebrated Ganesh Chaturthi together at Microfilter and the festive mood was lively and alive! Our whole family gathered to joyfully, fervently and humorously Honor Lord Ganesh. Every moment was positive and united, from the lovely aartis to sharing prashadam.

It was lovely to witness everyone smiling as they took part, making memories we will treasure for years to come. The festivities strengthened our bonds as a family and served as a reminder of the values that Lord Ganesh stands for knowledge, wealth and joy.

Visarjan of Ganpati Bappa with love and gratitude! We pray for joy, peace and prosperity for the entire Microfilter family. May Lord Ganesha shower His blessings upon us and guide us always. Ganpati Bappa Morya!

Message from Our CTO – Mr. Himanshu Kale

Driving Innovation at Microfilter Polymers Ltd

Innovation is at the heart of everything we do at Microfilter Polymers Ltd. As CTO, my goal is to make sure that our solutions and products not only satisfy the needs of the present but also anticipate the difficulties that the water filtration and treatment industry will face in the future.

Beyond manufacturing, we are dedicated to developing more intelligent, environmentally friendly technologies that enhance water quality, lessen their adverse impacts on the environment and provide value to our global customers. Our goal is to establish new standards for performance, efficiency and dependability by combining precision engineering, advanced materials, ongoing research and development.

I am incredibly proud of our talented team, whose dedication and expertise make these achievements possible. We are working together to create a future where everyone has access to safe and clean water.

Mr. Himanshu Kale
Chief Technical Officer
Microfilter Polymers Ltd

Navratri: A celebration of purity and new beginnings!

The festival of Navratri represents devotion, self-control and most importantly, purity. Water reflects this essence of purity in our everyday lives, just as we purify our hearts and minds during these nine holy nights to invite positivity and divine energy.

The cornerstone of harmony, health and wellbeing is pure water. Clean and safe water eliminates pollutants and supports life, much like Navratri encourages us to shed negativity and embrace clarity. Like the divine energy worshipped during Navratri, pure water promotes vitality, fortifies our spirit and sustains all facets of existence.

This festive season, let us remember:

- Purity in devotion leads to inner strength.
- Purity in water leads to healthier living.

As we celebrate Navratri with joy and faith, may we also commit to preserving the purity of water – the elixir of life – for ourselves and for future generations.

“Purity in Worship, Purity in Water, Purity in Life”

Birthday Celebrations at Microfilter

Mr. Shailendra Mangal (CMD)

On September 30, 2025, the Microfilter family came together to celebrate the birthday of our esteemed Chairman & Managing Director, Mr. Shailendra Mangal. The day began with a cake-cutting ceremony and was filled with joyful moments, laughter and heartfelt wishes. The team expressed their gratitude for his inspiring vision, unwavering support and exceptional leadership that have contributed to Microfilter's growth and success.

Wishing our CMD health, happiness and continued success! May this special day bring more milestones for him and the Microfilter family as we achieve new heights together under his guidance.

Dr. Prashant Agrawal (CEO)

On September 5, 2025, the Microfilter family celebrated the birthday of our inspiring CEO, Dr. Prashant Agrawal. A joyous cake-cutting ceremony and heartfelt wishes marked the occasion.

Dr. Agrawal's visionary leadership and dedication continue to drive our growth and innovation. We wish him good health, happiness and many more milestones ahead! His passion for excellence motivates us to achieve greater goals, while his guidance fosters teamwork and innovation. The celebration was a reminder of the strong bond that unites the entire Microfilter family.

Ms. Samrudhi Mangal (Independent Director)

We celebrated the birthday of our Independent Director, Ms. Samrudhi Mangal, with warmth and cheer. Her vision and guidance continue to inspire us and

this celebration was a token of our gratitude.

We hope she stays healthy, happy and achieves many more goals in the future! Her commitment and support strengthen our journey and her presence keeps the whole Microfilter family inspired. The event was full of happiness, community and sincere gratitude.

Experiences that Shaped My Path at Microfilter from Mrs. Ranju Rai

I have the pleasure to share my four incredible years at Microfilter. Throughout this time, I have been given the opportunity to learn, grow and contribute in an environment that values cooperation, innovation, and continuous progress.

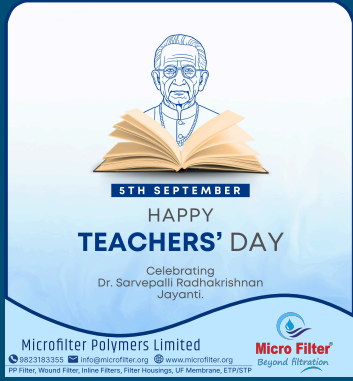

These have been inspirational and illuminating years. Every setback has been a chance to learn and every achievement has been more meaningful because it was shared with such a dedicated and encouraging group of individuals. I greatly appreciate management and my teammates' consistent support, confidence and teamwork throughout this process.

As I look ahead, I am determined to give with the same fervor and commitment. I am enthused about the potential that awaits for me at Microfilter. I believe we could accomplish even greater milestones together.

Warm regards,
Mrs. Ranju Rai
Administrative Officer

Celebrating Teachers' Day

Teachers preserve knowledge in the same way that water preserves life. Like our teachers, who mentor us selflessly and wisely mold our path, water quietly fosters growth by flowing with patience and perseverance.

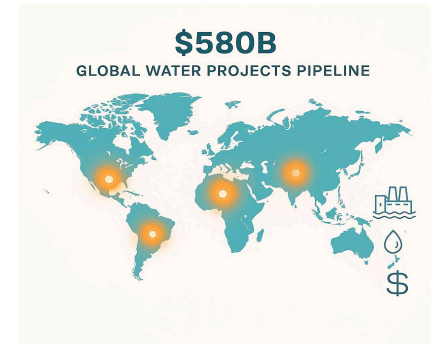

This Teachers' Day, we pay tribute to the mentors who, like clean water, help us think clearly, grow and create a better future for ourself.

Their principles endure across generations, serving as a constant reminder that real learning never ends.

Happy Teachers' Day!

News & Notation : Global Industry Momentum

A recent global report reveals that more than \$580 billion worth of water and sewage projects are in various stages of planning and execution worldwide. From advanced treatment plants to large-scale desalination and smart water networks, this surge reflects how water is no longer just a utility, it's becoming a strategic growth sector attracting major investment.

Employee of the Month : Mrs. Shilpa Churhe – Executive Assistant

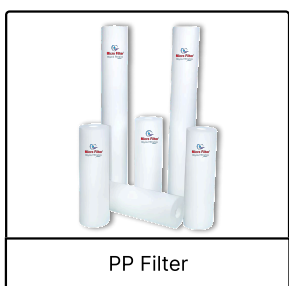

We're proud to recognize Mrs. Shilpa Churhe as our Employee of the Month. In her role as Executive Assistant, Shilpa has shown outstanding dedication, precision and reliability. She effortlessly manages complex schedules and ensures seamless support to the chairman.

Beyond her skills, she brings warmth, positivity and a spirit of collaboration that inspires everyone around her. Always ready to go the extra mile, Shilpa embodies the values we cherish as a company.

This recognition is a reflection of her consistent efforts, professionalism and the value she adds to our organization each day. Please join us in congratulating Mrs. Shilpa Churhe on this well deserved honor!
