

NEWS LETTER

January 2026 Edition

From The Chairman's Desk: Leading with Vision, Responsibility, and Purpose

At Microfilter Polymers Limited, every new beginning is an opportunity to pause, reflect, and realign ourselves with our core purpose. As we move forward into this new phase, our focus remains firmly rooted in responsibility towards our customers, our people, and the environment we serve.

The demand for efficient and sustainable water management solutions is growing rapidly. Industries today are not only expected to perform but also to operate responsibly. Our vision has always been to stand at the intersection of innovation, reliability, and sustainability, delivering filtration solutions that create long-term value rather than short-term gains.

What gives me immense confidence is our team. The dedication, discipline, and adaptability shown across departments enable us to continuously raise our standards. As leaders, our role is to empower this talent, encourage innovation, and ensure that growth never comes at the cost of quality or ethics.

Also, I'd like to congratulate the sales team on the supply of WTP at Amul and the order from Maldives Airport for the STP plant. Both orders are significant and a feather in our cap.

As we step into this new beginning, I invite every member of the Microfilter family to think beyond routine tasks and see the larger impact of our work. Together, we are not just manufacturing products we are contributing to a cleaner, safer, and more sustainable future.

Warm regards,
Mr. Shailendra Mangal
CMD
Microfilter Polymers Ltd.

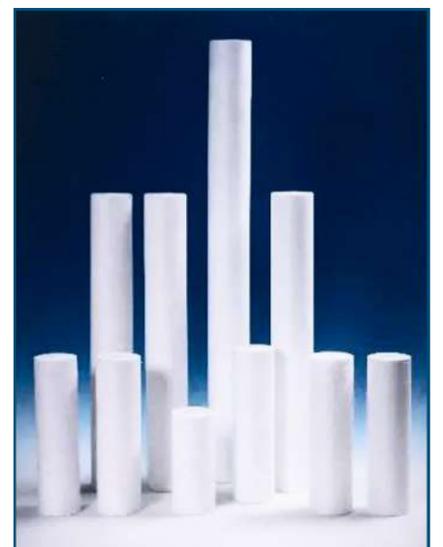

PP Filter – Reliable Filtration Solution

The PP (Polypropylene) Filter from Microfilter Polymers Limited is designed to deliver efficient and consistent filtration performance across industrial and commercial applications. Manufactured using high-quality polypropylene, the filter effectively removes suspended particles, sediments, and impurities, ensuring improved water clarity and system protection.

Known for its durability, chemical resistance, and cost-effectiveness, the PP filter supports smooth operation of downstream equipment while maintaining reliable filtration standards. It reflects our commitment to quality manufacturing, dependable performance, and practical filtration solutions tailored to customer needs.

- High Filtration Efficiency
- Durable Polypropylene Construction
- Cost-Effective Filtration Solution
- Wide Application Compatibility
- Excellent Chemical Resistance
- Protects Downstream Equipment
- Consistent & Reliable Performance
- Suitable for industrial and commercial applications

Message From Whole Time Director Strengthening Foundations for Sustainable Growth

New beginnings are not just about fresh starts; they are about building stronger foundations for the future. At Microfilter Polymers Limited, our growth journey has been shaped by consistent processes, disciplined execution, and a clear understanding of market needs.

As we scale our operations and expand our capabilities, our priority is to strengthen internal systems manufacturing excellence, quality assurance, supply chain efficiency, and customer responsiveness. Sustainable growth is only possible when operational strength supports strategic ambition.

Innovation plays a critical role in this journey. By adopting advanced technologies, refining our manufacturing practices, and focusing on performance-driven solutions, we ensure that our products continue to meet evolving industry standards. Equally important is nurturing a culture where learning, accountability, and collaboration thrive.

This new phase is an exciting one. It brings challenges, but also immense opportunities to refine how we work and how we deliver value. With a committed team and a shared vision, I am confident that we will continue to grow responsibly—creating solutions that our customers trust and outcomes we can all take pride in.

Warm regards,
Mrs. Ritu Mangal
Whole Time Director
Microfilter Polymers Ltd.

Quote Of Month

“New beginnings are built on clear vision, strong intent, and the courage to keep improving every day.”

Leadership Visit at Microfilter Polymers Limited

We were pleased to welcome Mr. Aditya Ratnparkhi, Managing Director of Electronica Plastic Machines, at Microfilter Polymers Limited.

The visit provided an opportunity for meaningful discussions on advanced manufacturing technologies, process efficiency, and future collaboration. Such interactions strengthen industry partnerships and support our continued focus on innovation, quality, and operational excellence.

New Year Pooja & Celebration at our Office

The year began on an auspicious note at Microfilter Polymers Limited with a New Year Pooja, seeking blessings for growth, harmony, and success. Together, we welcome the year with positivity, teamwork, and renewed energy for the journey ahead.

Makar Sankranti Celebration – 14 January

We celebrated Makar Sankranti on 14 January together at Microfilter Polymers Limited, sharing festive joy, togetherness, and positive energy. The celebration reflected our strong team spirit and the values of unity, gratitude, and new beginnings as we move forward together.

New Year Targets & Commitment

As we step into the new year, Microfilter Polymers Limited continues to chase clear targets focused on excellence, innovation, and responsible growth. With renewed determination, our teams are working towards delivering high-quality solutions that create value for customers while contributing positively to society. This year's goals reflect our commitment to continuous improvement, sustainability, and building a better future through meaningful work.

Our Vision

- Sustainability Focus: Supporting water reuse, waste reduction, and energy-efficient solutions
- Operational Strength: Streamlining processes for faster delivery and consistent quality
- Customer-Centric Growth: Building long-term partnerships through trust and performance
- Product Excellence: Enhancing membrane and filtration technologies to meet evolving industry needs

Our direction is clear growth with purpose, progress with integrity.

Election Day Awareness – 15 January 2026

During the NMC local body election on January 15, 2026, Microfilter Polymers Limited emphasized the significance of voting as a civic duty. By encouraging awareness and participation, we proudly did our bit to support the democratic process reinforcing that every vote counts and every responsible action helps shape a better future.

The Future We Are Building

The road ahead is filled with opportunities to innovate, expand, and make a difference. With increasing focus on sustainable water management, Microfilter Polymers Limited is well-positioned to play a vital role in shaping responsible industrial practices.

What Lies Ahead

- Continued investment in advanced filtration technologies
- Expansion into new markets and applications
- Stronger focus on eco-friendly and energy-efficient solutions
- Deeper engagement with customers and partners

A Message of Gratitude

We extend our sincere thanks to our employees, customers, partners, and well-wishers for being an integral part of our journey. Your trust and support inspire us to aim higher and do better every day.

Together, this new beginning is not just about growth it is about creating lasting value and a cleaner future.

Our Strength Lies in Our People

Behind every successful project and product is a team driven by commitment and collaboration. At Microfilter Polymers Limited, teamwork is not just a value it is a daily practice. From manufacturing to quality control, sales to support, every function works together toward a common goal.

Culture of Continuous Improvement

We encourage learning, innovation, and accountability at every level. Embracing new technologies, improving skills, and adapting to change are central to our work culture. This approach helps us stay competitive while maintaining the standards our customers trust.

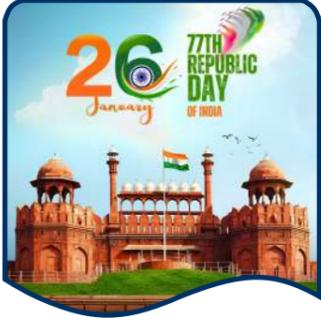

Performance with Purpose

Our achievements are measured not only by numbers but by impact:

- Reliable solutions that support industries
- Systems that promote water reuse and efficiency
- Relationships built on transparency and consistency

As we move forward, our people remain the driving force behind every milestone we achieve.

Republic Day Celebration – 26 January

Microfilter Polymers Limited proudly celebrated India's Republic Day with great enthusiasm, unity, and patriotic spirit at its premises. The occasion marked not just the remembrance of the adoption of the Indian Constitution, but also reaffirmed our collective responsibility towards the nation and society.

The celebration commenced with the hoisting of the National Flag, followed by the singing of the National Anthem, creating a moment filled with pride and respect for our country. Employees from various departments gathered together, reflecting the strong sense of teamwork and togetherness that defines the Microfilter family.

Birthday Celebration : Mr. Manish Bagalkote (Independent Director)

We celebrated the birthday of Mr Manish Bagalkote, Independent Director, at Microfilter Polymers Limited with warmth and togetherness. The occasion was marked by cheerful moments and heartfelt wishes, as we expressed our appreciation for his guidance, experience, and valuable contribution to the organization. We wish him good health, happiness, and continued success.

Employee of the Month: Ms. Shweta Kenia (Executive Assistant)

We are pleased to recognize Shweta Kenia as the Employee of the Month at Microfilter Polymers Limited. Her consistent dedication, strong organizational skills, and proactive approach have made a meaningful impact on daily operations and administrative efficiency.

Shweta plays a vital role in supporting leadership and teams by ensuring smooth coordination, timely communication, and effective follow-ups. Her ability to manage responsibilities with precision, professionalism, and a positive attitude reflects her commitment to excellence.

We sincerely appreciate her efforts and contribution, and congratulate her on this well-deserved recognition. We wish Shweta continued growth, success, and many more achievements in the journey ahead.
